

Chancellor's Message

I am highly delighted to present the 7th News Letter of VIBA. I feel proud to state that the Department of Management studies - VIBA under VELS UNIVERSITY is a vibrant department with professional excellence. At VIBA, we seek bright, energetic men and women eager to accept the challenges of an academically rigorous and personally fulfilling learning program that encourages students to think in new and creative ways in the global marketplace

I appreciate our VIBA members for their continuous efforts by bringing academic excellence with professional experience to the program. We believe in building strong futures for our students. Apart from the routine activities VIBA has been organizing various workshops for the professional development of both the faculty and the students. VIBA has also created a mark among the other management schools in the city by bagging many prizes in inter-college management competitions.

Apart from the regular two year MBA programme approved by the AICTE, the University also has planned to offer joint MBA programmes along with IIL and many advanced level diplomas. And I am happy to note that VIBA has already taken initiative to get accredited by NBA.

I hope that this News letter will be used as a medium of communication with all interested groups.

With warm regards,

Dr. Ishafi K. Ganesh

Chancellor
VELS University
